

Picture: pm3/val/evv/h1 Manual pilot valve

The pm3/val/evv/h1 pilot valve is for manual operation. It contains two ND 3 functions and is suitable for implementation in marco hydraulic blocks pm3/val/b*.

Features

Dimensions (mm)	142.5 x 29.5 x 40
Operating pressure	350 bar
Medium	please contact marco.
2 functions	ND 3
Connections	compatible with electrohydraulic pilot valve
Operating force	< 10 N

Application

The pilot valve is mounted on pm3/val/mb../ hydraulic block to trigger manually controlled functions.

Order Number	Release	Description
pm3/val/evv/h1	1.0	Manually operated pilot valve
pm3/val/mb16/4-12a		Hydraulic block with all valves and solenoid driver
pm3/val/evv/a		Double solenoid pilot/evv valve
mcv/8/k		Solenoid driver with 8x cable loom
di:0-3x1,5sh90		Spare o-ring
di:0-7x1,5sh90		Spare o-ring
